Changes Proposed to the Municipal Pension Plan

Plan partners of the Municipal Pension Plan are proposing changes to your pension. The proposed changes have been guided by an approach focused on:

- improving equity for members,
- aligning benefits with how the majority of members use them
- setting a strong foundation for the long-term sustainability of the plan, and
- staying within the current cost envelope.

The proposed changes will affect active members in the Municipal Pension Plan.

To learn more about the proposed changes and how they might affect you, please visit mppredesign.ca to learn more.
